AS A user I WANT to create profiles (mine and child) SO THAT the app fits my actual needs

+ Add

Apps

LabelsNone

Description

AS A user I WANT to create profiles (mine and child) SO THAT the app fits my actual needs.

Additional Details

- The profile requires name and date of birth
- There main login is the main profile
- The main login can create multiple sub profiles for the children
- The main login is the only one with admin privileges

Acceptance Criteria

- GIVEN that I'm already active in my account, WHEN I go to the settings page THEN there must be an option for me to create and manage the main profile and sub profiles
- GIVEN that I'm already active in my account, WHEN navigating the app THEN nothing from the Activities area should be ON if no sub profile is created

Definition of Ready

☐ US created using the INVEST model

☐ UX/UI created and validated

☐ Dev and Test environments up

Definition of Done

☐ Tests are valid

☐ Approval from PO

☐ Approval from UX

☐ Completed acceptance criteria

☐ Sensitive data must be encrypted

AS A user I WANT to create my own day schedule SO THAT I can fit my activities on it and organize them

+ Add @ Apps

Labels None

Description

AS A user I WANT to create my own day schedule SO THAT I can fit my activities on it and organize them.

Additional Details

- The schedule is in a table format using days and time
- The user can select day and time and write notes on it
- The user cannot create schedules for past time (<current date)
- The schedule cannot conflict in itself, only one schedule per day-time

Acceptance Criteria

- GIVEN that I'm already active in my account, WHEN I go to the schedules page THEN there must be an option for me to create and manage schedules in a table format
- GIVEN that I'm already active in my account, WHEN navigating the schedules page THEN I can manage an existing schedule but not create conflicts of activities on it

Definition of Ready

- ☐ US created using the INVEST model
- ☐ UX/UI created and validated
- ☐ Dev and Test environments up

Definition of Done

- ☐ Tests are valid
- ☐ Approval from PO
- ☐ Approval from UX
- ☐ Completed acceptance criteria
- ☐ Sensitive data must be encrypted
- ☐ No request should take more than 2 seconds

⚙ Configure

AS A user I WANT to sync my work schedule in the app SO THAT I can easily find free spots of time for fitting care activities

[+ Add](#)[@ Apps](#)

Labels

None

Description

AS A user I WANT to sync my work schedule in the app SO THAT I can easily find free spots of time for fitting care activities.

Additional Details

- The schedule comes from worktools like MS Teams, Outlook or similar tools
- The user needs to give the app access to the schedule
- The user cannot alter the work schedule via app, only add and assign activities in free slots on it

Acceptance Criteria

- GIVEN that I'm already active in my account, WHEN I go to the schedules page THEN there must be an option for me to sync my work schedule into the app
- GIVEN that I have decided to sync, WHEN the button for sync is pressed THEN there should be a confirmation message asking for permissions
- GIVEN that I'm already active in my account, WHEN navigating the schedules page THEN I can manage an existing schedule but not create conflicts of activities on it
- GIVEN that I have synced my work schedule in the app, WHEN on it THEN I cannot make changes to work activities defined on my work app

Definition of Ready

- ☐ US created using the INVEST model
- ☐ UX/UI created and validated
- ☐ Dev and Test environments up

Definition of Done

- ☐ Tests are valid
- ☐ Approval from PO
- ☐ Approval from UX
- ☐ Completed acceptance criteria
- ☐ Sensitive data must be encrypted
- ☐ No request for sync should take more than 1 minute

AS A user I WANT to pick activities from a pre defined set SO THAT I can easily fit my needs

+ Add

Apps

LabelsNone

Description

AS A user I WANT to pick activities from a pre defined set SO THAT I can easily fit my needs.

Additional Details

- The app should provide the user a list of activities so the user can select the best fit for the time given
- The activities should come from a pre defined list, aligned with the stakeholders
- The user cannot select an activity that takes longer than the available time for it (a warning message must pop up)

Acceptance Criteria

- GIVEN that I'm active in my account and the schedule is ready, WHEN I go to the activities page THEN there should be a list of activities and the time they take for me to select from
- GIVEN the activities from the list are available for me to select WHEN I click on one of them THEN an option to display a description and details should pop up
- GIVEN that I am active in my account WHEN I select an activity THEN it should appear on my schedule over the free time slots I had

Definition of Ready

- ☐ US created using the INVEST model
- ☐ UX/UI created and validated
- ☐ Dev and Test environments up
- ☐ Stakeholders have agreed on a list of activities the app may support

Definition of Done

- ☐ Tests are valid
- ☐ Approval from PO
- ☐ Approval from UX
- ☐ Completed acceptance criteria
- ☐ Sensitive data must be encrypted
- ☐ User can select activities and assign to available time slots

Configure

AS A user I WANT to receive suggestions of activities SO THAT I do not need to extensively search for them in the app

+ Add  Apps

Labels None

Description

AS A user I WANT to receive suggestions of activities SO THAT I do not need to extensively search for them in the app.

Additional Details

- The app should suggest the user a list of activities so the user can select the best fit for the time given
- The activities should come from a pre defined list, aligned with the stakeholders
- The activities must match profile, age, available time
- A simple ML model should be implemented for the recommendations

Acceptance Criteria

- GIVEN the user is active and the profiles and schedules are set WHEN the user opens the activities area in the app THEN some recommendations should come up
- GIVEN that recommended activities are NOT mandatory WHEN the user selects one that do not match the profile age THEN a warning message should come up but not keep the user from selecting the activity

Definition of Ready

- ☐ US created using the INVEST model
- ☐ UX/UI created and validated
- ☐ Dev and Test environments up
- ☐ Stakeholders have agreed on a list of activities the app may support

Definition of Done

- ☐ Tests are valid
- ☐ Approval from PO
- ☐ Approval from UX
- ☐ Completed acceptance criteria
- ☐ Sensitive data must be encrypted
- ☐ User can select activities and assign to available time slots

 Configure

AS A user I WANT to receive notifications SO THAT I do not miss any activity time

+ Add  Apps

Labels None

Description

AS A user I WANT to receive notifications SO THAT I do not miss any activity time.

Additional Details

- The app should push notifications for the user when the time for activities comes near
- These notifications should be in the format of small messages
- The user may also have the option to enable/disable notifications
- Enable by default
- User must take action so the app knows the notification was seen

Acceptance Criteria

- GIVEN that I have planned activities WHEN the time comes THEN I should receive a push notification on my phone if enable
- GIVEN that I have planned activities but the feature is disabled WHEN the time comes THEN I should not receive any notifications

Definition of Ready

- ☐ US created using the INVEST model
- ☐ UX/UI created and validated
- ☐ Dev and Test environments up

Definition of Done

- ☐ Tests are valid
- ☐ Approval from PO
- ☐ Approval from UX
- ☐ Completed acceptance criteria
- ☐ Sensitive data must be hidden if phone is blocked
- ☐ Notification should be seen by the user
